Western Bankers aid Soviet Economy

NEW statistics issued by the Bank of International Settlements reveal that in the first nine months of 1975 borrowing by Eastern European institutions rose from \$6.6 billion to \$12 billion. Institutions in the Soviet Union alone increased their borrowing from \$74 million to \$3.1 billion.

According to a study made by the United States Central Intelligence Agency Office of Economic Research, the Soviet foreign trade deficit was \$4,700 million last year. Another substantial deficit is expected this year.

THE British People are under attack. A Red threat looms over our country. While the non-Communist World is being strangled from without a fifth column of traitors to our Nation and Race are at work within.

The Communist-backed I.R.A. have been waging a civil war in Ulster for the past seven years. Their murderous campaign has now spread to the mainland.

Red mobs — fierce supporters of the I.R.A. enemy — are allowed to go on the rampage through the streets of our cities, and are given

a free hand to attack their opponents.

Our kith and kin in Rhodesia are increasingly threatened by the terrorist bomb and bullet. Again the hand of the Soviet Union and its Communist allies is clearly seen to be at work.

While all these things menace us, our will to survive as a Nation is being sapped by so-called 'race relations' laws aimed at making any sense of racial preference illegal.

Far from opposing these trends, Britain's ruling Establishment is actually aiding and abetting them; not only through a policy of weakness in the face of Communist violence, but through positive help to the Soviet enemy. The traditional 'Right' as represented by the Conservative Party has played a full part in allowing Britain to reach its present perilous position.

Police lose control as Red mob goes on rampage

ON the Saturday before polling day in the Coventry North-West Parliamentary By-election the city centre was at the complete mercy of a 1000-strong Red mob, which surrounded an open air National Party meeting in the central precinct. The twenty-five or so NP activists attending the meeting were determined to stand their ground.

After about twenty minutes the crash-helmeted Communist ranks plucked up enough courage to close in. Fighting erupted as three Reds, one of whom was a Negro, attacked NP National Executive member Dave McCalden.

Despite being heavily outnumbered the NP members fought back injuring several Reds, one of whom ended up with a badly broken jaw.

Although the police were little in evidence and had completely lost control of the situation, they

did take advantage of a lull in the fighting to break up the NP contingent and hustle its members away. The police even tried to arrest two NP members who had hit Reds in self-defence.

Shoppers who had been highly amused to witness a real life riot became somewhat less amused when the crazed Reds turned on them and began to beat them up. This experience should at least have helped to bring home the fact that Communism threatens us all.

This would not only weaken the Soviet Union in its attempt to bury the West, but might lead to social unrest and the overthrow of the tyrannical Communist system from within.

RACE TRAITORS TIGHTEN THE SCREWS

ONE of the most important provisions of the new Race Relations Bill is to change the legal definition of discrimination, which has been widened to include indirect discrimination.

Those who lay down conditions or requirements for a job, for example, will have to prove that these are necessary. If this cannot be done and if the conditions or requirements rule out a disproportionate number of Coloured applicants, the employer will be guilty of racial discrimination.

This innovation is only a short step away from the quota system as operated in the United States. Under this system Coloured minority groups must be employed in any business or educational establishment in the same proportion as they comprise the total population of the area. In other words, if 25% of the population of an area is Coloured then 25% of the teachers, doctors, business employees and so on, in this area must also be Coloured.

This policy invariably results in Coloureds occupying jobs in place of better-qualified White people. The latter are either sacked or denied jobs. Since no suitable Coloured applicants are available in many cases, this results in jobs simply being left vacant, with eminently qualified White workers being consigned to the dole queues.

Even under the 'British' system an unfair advantage will be given to Coloureds; British employers will be forced to justify — in the courts — the rejection of every non-White applicant. This amounts to discrimination against the White British People in their own country.

its Communist allies is clearly seen to be at work.

While all these things menace us, our will to survive as a Nation is being sapped by so-called 'race relations' laws aimed at making any sense of racial preference illegal.

Far from opposing these trends, Britain's ruling Establishment is actually aiding and abetting them; not only through a policy of weakness in the face of Communist violence, but through positive help to the Soviet enemy. The traditional 'Right' as represented by the Conservative Party has played a full part in allowing Britain to reach its present perilous position.

RACIAL NATIONALISM

There is only one force capable of stopping the Communist advance and that is the force of Racial Nationalism — a pride in our ethnic identity and a burning will to survive.

Our enemies know this and hence they are very careful to ensure that the only form of 'anti-Communism' given publicity is the harmless line of liberal internationalism. Hence when Solzhenitsyn was regarded as an anti-Stalinist dissident struggling for civil rights, he was given wide coverage by the Establishment Press, T.V. and Radio. Now that he has emerged as a Russian Nationalist and has sought to expose and attack the flow of Western aid to Communism, the mass media have launched into a hymn of hate against him.

The only way in which Communism is going to be faced and beaten is by the emergence of a Racial Nationalist movement with an equally militant and all encompassing world view. We need a movement that will smash Communism both ideologically and physically.

The National Party is not offering an easy way. It is offering a challenge. The British People can do one of two things. They can sit back and allow Britain to fall under Communist domination, OR THEY CAN FIGHT BACK!

REDS BACK I.R.A. MURDER GANG

BRITAIN is at war with the I.R.A. and there is supposed to be a law against supporting them. Notwithstanding, the virulently anti-British International Marxist Group had this to say in the 12th February issue of their newspaper, *Red Weekly*:

"Every unknown MPLA soldier who fights the British troops in Angola fights not only for himself and his oppressed nation but also for us just as every I.R.A. soldier strikes at our enemy when he shoots a British soldier. Our task is not to weep over the possible death of the murdering scum who come from these shores."

This support for the I.R.A. — an enemy army that is shooting down British soldiers and blowing up British civilians — goes far beyond the point of tolerable debate. We are waging a life and death struggle in which the I.M.G. has sided with the mortal enemies of our Nation.

The I.M.G. is in fact closely linked with the Provisional I.R.A.

When the I.R.A. bomber Michael 'Gaughan' obligingly blew himself up while trying to plant a bomb, the remains of his body were scraped up, dumped in a coffin, and paraded through Kilburn by a mixed band of uniformed I.R.A. men and prominent members of the I.M.G. At one point the I.M.G.'s Leader, Tariq Ali, was photographed actually bearing the coffin. Close beside him was Maurice Foley Jnr., son of the well known Labour politician and former Minister, Maurice Foley Snr.

The links between the I.M.G. and the Provisional I.R.A. are believed to extend to activities other than funerals. According to reports I.M.G. members have been seen together with members of the I.R.A. being trained in the operation of the Soviet RPG7 Strela bazooka.

This is known to have occurred during the Winter of 1974-5 on Slieve Foy, a mountain in a remote area near the Southern Irish border town of Carlingford. Unconfirmed reports indicate that among the routes used to shuttle I.R.A. and I.M.G. men to and fro between Great Britain and the Irish Republic is the methane gas tanker ferry which goes from Preston to Carlingford.

Let us hope that the I.M.G. will soon have the opportunity to die for the foul cause which they have chosen to support.

I.M.G.: LINED UP WITH THE I.R.A.

"In principle we have never renounced and can never renounce, terrorism." — Lenin, Iskra No.4, May 1901. Quoted in Red Mole 5.6.72, the former paper of Tariq Ali's International Marxist Group.

Many aspects of immigration are, to say the least, distasteful to the British population. Our anger, however, should not be directed towards immigrants but to the politicians who allowed or encouraged the problem. Race hatred is counter-productive and no sympathy can be extended to those who incite it.

Where stands South Africa?

AS Communist Cuban troops are poised to attack Rhodesia, the world's press gloats at the prospect of Rhodesia's British population being drowned in their own blood, and eagerly awaits the same fate befalling South Africa.

Despite sharing common enemies with Rhodesia, White solidarity does not seem to be a principle of the Vorster government in South Africa. Vorster has long urged the White Rhodesians to accept Black rule in the mistaken belief that South Africa can buy its own survival by throwing everybody else to the Black Communist crocodile.

Vorster's policy of creating a string of 'moderate' Black-ruled buffer states in preference to what he regards as 'unstable' White-ruled countries has proved a total failure. In Angola Vorster would not help the Portuguese settlers, but he did allow the United States to trick South Africa into siding with the Chinese Communists in backing the FNLA and UNITA groups against the pro-Soviet Communist MPLA. In the event the MPLA won after all.

While the external Communist threat is now that much closer, the internal threat to South Africa advances apace. Only one South African in six is White, while all the other racial groups in the country are expanding at a faster

LETTERS TO THE EDITOR

Dear Editor,

I would like to correct a misinterpretation which some people might have placed on remarks I made at the National Party's Inaugural Conference.

When I said that it was wrong to flog convicted delinquents because in many cases it was not their fault, I did not mean that "society was guilty" and "delinquents were victims of society's pressures" — the familiar liberal codswollop we hear from the Establishment.

What I did mean was that in many cases people can be wrongly convicted. I can immediately think of a case last month when three boys were released after three months in borstal for a crime they did not commit. These boys had also been flogged by an irate policeman who had presumed they had ransacked an old lady's house.

Likewise, it is only a matter of time before a National Party member gets him or herself arrested in a run-in with some Communist assailants. If they are found guilty of a charge involving violence, should they too be flogged?

And without wishing to be pedantic, if causing injury and suffering to people is a crime deserving flogging, should not the entire Government be taken out and flogged for allowing — in fact causing — suffering and even death to our old folk through hypothermia?

Supporters of flogging use the same arguments which were used to approve cutting off the hands of thieves in Mediaeval times. Flogging does nothing to compensate the victims of crime, it simply brings more suffering into our society.

British folk will become a blazing inferno of avenging wrath. One person reawakened is formidable: Britons reawakened will prove invincible. Such a Britain would be a spiritual guide to the White Commonwealth and other White Nations.

Our cosmopolitan financier enemies know this potential and quake with fear at the thought of it. They know they cannot destroy the racial instinct until they destroy the Race itself. They know we are the most stubborn obstacle to their plans for world domination. That is why these insidious traitors try to destroy us.

So, armed with this knowledge, have no more pessimist half-heartedness and defeatism. With total unity, determination and self-sacrifice that a reborn Racial National spirit will give us, FINAL VICTORY WILL SURELY BE OURS!

IMMIGRATION AND DRUGS

Dear Editor,

A man has the right to be proud of his birthright and a man has the right to fight against invasion of his land, whether that be by outright war or by the insidious invasion that is going on today in the form of immigration.

We have seen the descent of Britain since the last War, and that has been brought about by the constant stream of uneducated and disease ridden immigrants. These immigrants have brought with them the use of drugs.

Our young people have been introduced to these drugs, and many of these young folk either die or end up in mental institutions.

We must fight back now and with every means at our disposal!

SOCIALIST DEMOCRACY

Dear Editor,

While selling *Britain First* in Finchley one Saturday I had the

Star. There ensued a most undignified verbal outpouring of Marxist hate against the National Party. Not only did this succeed in providing great amusement for the passers-by, but it also considerably boosted the sales of *Britain First*!

A little while later I strolled over to my left-wing sales assistant and commented on how pleasing it was that, in the spirit of true democracy, two people with such diverse political views could sell their newspapers side by side. On enquiring whether such a state of affairs would exist in Moscow I was informed: "No — you wouldn't be around". When I ventured to reply: "Oh, so that's democracy", I was told: "No, that's Socialism".

COVENTRY BY-ELECTION

Dear Editor,

On behalf of all members of the National Party Coventry Branch, I wish to thank all members of the Party who gave their help to the Branch during the recent election. Without their help it would not have been possible to put up a candidate.

We must not be disheartened at the result, or be dismayed because the NF pulled more votes than we did. What we have got to be proud of is the fact that we were able to put up a candidate within a few weeks of forming, whilst it took the NF almost six years and two candidates and they did not pull in one thousand votes.

Once again our very grateful thanks to you all.

South Africa seems to be playing for time while doing absolutely nothing to ensure long-term survival when time finally runs out. One thing that could help to ensure survival is the success of friendly Nationalists in Britain and elsewhere. South Africa may well view such possibilities as remote, but to view them as totally unobtainable is to accept that we are all doomed.

The real reason behind South Africa's lack of interest in Nationalist movements elsewhere, however, probably has more to do with its control by the financial and political empire of multimillionaire and multiracialist, Harry Oppenheimer, than it does with any considerations of hard-headed pragmatism. The latter would, after all, dictate recognition of the fact that South Africa cannot survive alone.

At some time in the near future White South Africans are going to have to stand and fight for their homeland. At this point there will be no more room left for manoeuvre, no room left for 'détente', no room left for compromise and no room left for Vorster.

When the war finally arrives one of the first casualties will have to be Vorster's government. Let us hope that its demise will not come too late, and let us hope that it will be replaced by a genuine hardline Nationalist administration that will at least give White South Africans a fighting chance.

Surely what is missing in our present system of criminal justice is any element of reparations by the criminal to the victim. Even if flogging does have a deterrent effect, which is by no means certain, it does nothing to correct this imbalance.

ENTERTAINING THE "REBELS"

TWO top British comedians, Jimmy Edwards and Eric Sykes, recently visited Rhodesia.

In a show put on in Salisbury for the armed forces Jimmy Edwards declared to loud applause: "We're entertaining rebels here and that's my chances of a knighthood up the spout".

Speaking from Rhodesia in a telephone interview with BBC radio, Jimmy Edwards said that he and Eric Sykes were putting on their show in Rhodesia "Because these are British people who understand British humour and we are having a great success. We haven't had an empty seat since we've been here".

Asked about his audiences Jimmy Edwards said: "They are of British extraction. Most of them are recently British and some of them are second and third generation".

"But the whole thing is that the show goes better in a way than it does in England because these people need laughs at the moment and I think we are providing them."

Eric Sykes said that the Rhodesians "are really out there risking their lives . . . they're all people like us".

"They are ordinary people and I feel we have more affinity here than we have with people in Mozambique and with Cubans in Angola."

Red shadow over Rhodesia

HAVING overrun Mozambique and Angola the tentacles of Soviet Imperialism are now reaching out towards Rhodesia. The Soviet Union's Cuban sidekick has moved its troops from Angola to Mozambique in preparation for launching an attack along the 700 mile frontier with Rhodesia.

According to a report which has been partially confirmed a considerable amount of military equipment has been supplied by the Soviet Union to the Communist Machel regime in Mozambique. It was landed at the ports of Beira and Lourenco Marques (now known as "Maputo"), since the territory became independent from Portugal.

It is reported to include: 422 ZIS-151 2½ ton trucks (the standard Soviet army truck), 24 ZIL-157K 2½ ton mobile workshops, 149 ZIL-485 amphibious armoured vehicles, 123 BTR-152-V3-ZIL armoured personnel carriers, 218 BTR-40p scout cars, 135 PT76 tanks, 225 T54 and T62 tanks, 130 BM21 (122mm) multiple rocket launchers — better known as

Stalin Organs, 8 Mig21 supersonic fighter-bombers, 110 MiL helicopters, 65 M-54 130mm field guns as well as large quantities of SAM7 'Grail' anti-aircraft missiles, RPG7 Strela rocket launchers (as used by the I.R.A. in Ulster), and Kalashnikov AK47 assault rifles (with ammunition).

Before the planned onslaught by Cuban-manned Soviet armour, the Black Communists intend to 'soften

up' Rhodesia by an all-out campaign of urban guerilla warfare against the cities and towns of White Rhodesia.

The Communists will be using tactics taught to them by the I.R.A. They propose to initiate a bombing campaign in urban areas in order to draw troops away from Rhodesia's border with Mozambique. As the Rhodesian Army is already overstretched on this border, more guerillas will be able to infiltrate into the country.

If, as military experts claim, 'conventional' forces must outnumber guerillas by a ratio of 10 to 1 in order to contain them, then the Rhodesian position is grave.

The only hope for Rhodesia lies in a massive display of White racial solidarity by the South Africans, and by Nationalists in all the other British settled countries of the Old Commonwealth.

NEW THREAT TO BRITAIN'S TRADE LINKS WITH NEW ZEALAND

THE Japanese are poised to edge Britain out of the New Zealand car market. Thanks to a tariff preference on UK cars, Britain still holds just over 50% of the market. Japanese exporters, who are in second place with 27.12% of the market, are pressing for the abolition of this preference.

Just as Britain is being isolated from New Zealand by the Common Market, so New Zealand is being railroaded into a South-East Asian trading area. Ties of kinship are being sacrificed so that International Capitalism can rationalise its holdings.

National Party candidate wins 14% of poll Liberal Party pushed into fourth place Labour Party disowns election leaflet

NATIONAL PARTY candidate Ron Jackson won 14% of the poll in the Brunswick Ward Council By-election for the London Borough of Southwark. He beat the Liberal Party candidate forcing him into fourth place.

The Labour Party tried to disown a leaflet which was put out in its support. The leaflet was an obvious attempt to pander to the Coloured immigrant vote, but it seems that any immigrant votes gained were more than outweighed by the number of White votes lost. Although the leaflet kept closely to Labour Party policy, many old Labour stalwarts were strongly offended by it.

The leaflet was entitled: "DON'T FEEL LEFT OUT IF YOU ARE AN IMMIGRANT: JOIN THE LABOUR PARTY". It said: "The Labour Party has done much to create today's excitingly colourful multiracialist Britain and feels that the culture of these islands has been greatly enriched by the arrival of immigrant people from the Caribbean, Africa, Asia and Europe".

"The Labour Party view is that there is nothing special about the British (or any other nationality) which gives them exclusive rights to this or any other country. We are all citizens of the World."

The following section was entitled "LABOUR FOR BLACK LIBERATION" and stated: "The Labour Party supports the Black liberation struggle in Africa and the efforts of the Soviet Union and Cuba to help build socialism on that continent. COVENTRY BY-ELECTION

NATIONAL PARTY Chairman John Kingsley Read won over 200 votes in the Coventry North West By-election held on March 4th. Despite being in existence for only two months the National Party mounted an impressive campaign, distributing election addresses to every household and canvassing a large number.

The National Party vote would have undoubtedly been much higher still were it not for the intervention of the National Front organisation, which muscled in to split and confuse the British Nationalist vote after the National Party had already declared its intention of fighting the seat.

It is ironic that the Front was able to cash in on the work that had been put into the city over the years by members who are now almost all in the National Party.

ESTABLISHMENT HELP

Besides having the advantage of nine years in which to get its name across, the Front was consistently given better coverage by the Establishment press. The Establishment is deliberately building up the National Front because they know that they can destroy it at anytime they want to by the exposure of certain of its leading members.

National Front intervention against the National Party also took the form of physical intimidation. Kingsley Read was surrounded by Front members and threatened while canvassing in Burnaby Road. National Party leafletters were also harassed by carloads of Front men

who cruised around the area shouting abuse. At the election count one National Party member was actually physically assaulted by one of the Front's more manly hangers on.

Besides getting involved in fights the National Front made little other contribution to debate. One of the few comments made by the NF candidate, Andrew Fountaine, was lifted out of *Britain First!*

The National Party also suffered at the hands of Coventry's Labour council which refused to give the Party an office.

Smear leaflets were distributed by the International Socialists but these didn't seem to have much effect; the Tory candidate actually increased his vote despite being the chief object of these attacks.

Regardless of the setbacks the campaign was very worthwhile as the Party was given an opportunity to publicise its existence over the whole country. Several members were recruited in Coventry, and a Warwick and Leamington Branch has been set up as a direct result of the members and publicity gained.

National Executive

AT the first meeting of the National Executive of the National Party which was held on the 6th March, Kingsley Read was elected Chairman and Administration Officer, Mike Lobb was elected Deputy Chairman, Carl Lane was elected Treasurer, Richard Lawson was elected Press and Publicity Officer and Dave McCalden was elected Activities Officer.

It was also decided that the holders of these six posts would be ex officio members of an Inner Council to which the Executive would delegate its authority to run the Party on a day to day basis between meetings of the full Executive. At the present time this means an Inner Council of five. It was further resolved that the Inner Council should never consist of less than five.

Standing orders for the conduct of Executive business were also drawn up, and it was decided that the deliberations as opposed to the decisions of the Executive should be kept confidential to the Executive.

The meeting closed with a discussion of the Coventry By-election. All National Party Branches are asked to help pay for the cost of fighting this election. Cheques/postal orders should be made out to the National Party and sent to 385A Lordship Lane, London, N17 6AE.

REGIONAL STRUCTURE

At a National Executive meeting held on the 21st March it was decided to set up a regional structure for the Party based on the new counties. In order to get things moving Regional Agents were appointed to organise Branches and Regional Councils. As soon as the latter have been properly set up they will elect their own Regional Agents.

KINGSLEY READ LEADS NATIONAL PARTY PROTEST

500 BLACKBURN RESIDENTS attended a mass demonstration organised by the National Party in order to protest against plans by the City's Coloured immigrant population to build a mosque in Accrington Road. The National Party does not of course interest itself in disputes over religion and this wasn't one. The mosque for Asian immigrants was to be built in a still predominantly White area. As an Asian Moslem religious centre the mosque would attract more and more Asians into the district.

White residents in the Accrington Road area are afraid that it will be turned into another Asian ghetto. The National Party has been co-ordinating a protest campaign in order to force the local council to deny planning permission for the mosque.

The National Party's Blackburn Branch Chairman, Bob Horman, has stated: "We shall not give up this fight, and as promised to the White residents of the Accrington Road district, we shall do all in our power to stop this mosque".

The demonstration took the form of a march and meeting. When the march began in Bridge Street it numbered about 120 people, but many White youths joined in along the route while other local people clapped and cheered from the pavements. By the time the meeting got under way at Accrington Road there were 500 people present.

Kingsley Read told the meeting that the recent action brought against him by the Race Board was a "farce". "In case anyone wants to know if I am going to break the injunction", he continued, "I say

The Saturday before the trial some 300 National Party members marched through Manchester in support of Kingsley Read. There were no counter-demonstrators apart from a few odds and sods belonging to the 'gay' wing of the National Front.

The march was followed by an open air rally which was addressed by Denis Pirie, Dave McCalden, Richard Lawson and

NATIONAL PARTY members Richard Lawson and Dave McCalden recently gave evidence in court on behalf of a member of the National Front.

The NF member had been arrested after an incident in New Hill last September, when a contingent of NF members had been attacked with metal stools, dunder and cans of paint at an anti-racism meeting. An NF member by the name of Cohen failed to turn up to give evidence.

The NP members were asked to stand up to extremely heavy cross-examination from the judge, Mr. Justice Zigmond, with the result that the defence was found not guilty.

The attitude of the National Party towards individual members was in marked contrast to that of the National Front. In the situation is reversed. For example, an NF member, John Aistrop, decided to drop his support for the party. Dave McCalden and Richard Lawson, in their applications to join the Institute of Journalists. The support of Aistrop, a journalist of the *Catholic Herald*, was essential for two were to gain admission to the trade union, after they were temporarily rejected from the National Union of Journalists.

KINGSLEY READ LEADS NATIONAL PARTY PROTEST MARCH

500 BLACKBURN RESIDENTS attended a mass demonstration organised by the National Party in order to protest against plans by the City's Coloured immigrant population to build a mosque in Accrington Road. The National Party does not of course interest itself in disputes over religion and this wasn't one. The mosque for Asian immigrants was to be built in a still predominantly White area. As an Asian Moslem religious centre the mosque would attract more and more Asians into the district.

White residents in the Accrington Road area are afraid that it will be turned into another Asian ghetto. The National Party has been co-ordinating a protest campaign in order to force the local council to deny planning permission for the mosque.

The National Party's Blackburn Branch Chairman, Bob Horman, has stated: "We shall not give up this fight, and as promised to the White residents of the Accrington Road district, we shall do all in our power to stop this mosque".

The demonstration took the form of a march and meeting. When the march began in Bridge Street it numbered about 120 people, but many White youths joined in along the route while other local people clapped and cheered from the pavements. By the time the meeting got under way at Accrington Road there were 500 people present.

Kingsley Read told the meeting that the recent action brought against him by the Race Board was a "farce". "In case anyone wants to know if I am going to break the injunction", he continued, "I say

don't sell your houses to Coloured immigrants".

Mr. Roy Martin, the Race Board's 'Gauleiter' for North West England, reported Kingsley Read to the Board in the hope of getting him sent to prison.

Thousands of Asians from all over the North and Midlands had threatened to hold a counter-demonstration, but this was called off at the last minute. It was evidently felt that an invasion of Blackburn by hordes of Coloured immigrants would not do their cause much good.

Twenty-two people joined the Party as a direct result of the demonstration. Once again it is the National Party which shows itself to be the party which fights for the interests of the ordinary indigenous population.

Kingsley Read advanced an ingenious defence to the action to the effect that the Race Relations Act had no power in the Duchy of Lancaster, but this was ruled out by Mr. Justice Zigmund, who was assisted by two Assessors who were appointed by the Home Secretary on advice from the Race Relations Board.

Costs set at the highest level possible were awarded against Kingsley Read, and an order was made that these were to be paid within three days of being determined.

After leaving the Court Kingsley Read was attacked by a group of about thirty Communists. A scuffle ensued in which Kingsley Read injured his hand.

As a result of this injunction any member of the National Party who dares to suggest that Britons should put their own people first in their own country could render Kingsley Read liable to be hurled into gaol.

BETRAYED TRUST

THE National Front has accused the Editor of *Britain First* 'betraying his position of trust' with regard to the contract for *Britain First*.

When *Britain First* was originally set up, Martin Webster insisted that Richard Lawson take full legal financial responsibility for its activities. It is true that Richard Lawson drew an income of sorts from the National Front, but it is also true that most of the actual content of *Britain First* was researched and drawn up in his own time.

Contrary to allegations made by certain people, *Britain First* has always been financially self-supporting. Any money lent to the National Front to help *Britain First* get off the ground was repaid in full.

When *Britain First* was asked to 'secede' from the National Front because it was registered in Richard Lawson's name, it took no notice of the financial resources but only debt liabilities. *Britain First* existed as a name and a reputation — a reputation which all its contributors were determined to save from falling into the hands of those who have taken over the National Front.

To have done otherwise would have been a betrayal of the trust of the ordinary decent British working people who contributed — either in respect of material or financial support — to make *Britain First* what it is today.

Unlike those people who have taken over the National Front, *Britain First* has never been concerned with legalistic or so-called moralistic arguments. The 'morality' that concerns us is the morality that advances the British National cause. As the National Party has in our opinion, the only effective vehicle available to that cause, the contributors to *Britain First* will put their all at its disposal.

These reports were followed by the debate of various motions which sought to amend the *Constitution*. As this was the first Conference of the Party the Founder Members, who had been acting as its Executive, allowed all motions to go forward for debate.

In the event only one constitutional change was made. This was to Section 9: PARTY PROPERTY sub-section 1. This now reads: "The equipment, stores, stock and funds of Branches shall be used at the discretion of the unanimous decision of the Branch Committee. In the event of a failure to agree among the members of the Branch Committee that discretion shall pass to the simple majority decision of Branch members voting personally at the first subsequent Branch meeting."

A collection was then held which raised over £500. This included a £60 donation from Tottenham Branch, £50 from Miranda Bolton, £50 from Mr. & Mrs. Prescott, £25 from Group-Captain Paul Harris DFC and £25 from Martin Vaux.

The meeting concluded with a rousing speech from Kingsley Read which was greeted with a standing ovation.

Rowntree ODItY

by DAVE McCALDEN

FOLLOWING the Young Liberals' declaration of support for the Palestinian cause, the Joseph Rowntree Social Services Trust has decided to terminate its financial support for the Liberal Party, which it has aided to the tune of £50,000 a year.

The Trust has for some time been a fountain of funds for a wide range of political organisations, including the Labour Party, PEST (part of the Tory Party), the Alliance Party, the Northern Ireland Labour Party and the Northern Ireland Social Democratic Labour Party. In fact, the Trust has played a prominent role in Northern Ireland, not just by donating large sums of money to the various anti-Loyalist parties, but by providing a go-between in 'peace' (i.e. British surrender) negotiations. In January 1975, the Rowntree Trust secretary Pratap Chitnis — an Asiatic — paid a visit to Belfast to take messages between Andy Tyrrie of the U.D.A., Seamus Loughran, a prominent Provisional, Glenn Barr also of the U.D.A. and a senior civil servant of the Rees junta.

However, it would seem that the Trust is not so dedicated to love and peace as would first appear, for some years ago a handsome donation was made to African guerillas in the form of the Committee for Freedom in Angola, Mozambique and Guinea. (The Committee is represented in London by Lord Tony Gifford, the Left-wing's legal whizz-kid, who has defended a wide range of way-out Leftists, but recently came unstuck when he attempted to prosecute a prominent Hackney Nationalist.)

The Trust has also made donations from time to time to Amnesty International, the Golborne Neighbourhood Council, the Joint Council for the Welfare of Immigrants, the National Council for Civil Liberties,

Trust is not a charitable trust, but a limited company. This enables the Trust to make political donations, which a charity would not be able to do, although it does have to pay normal company tax for the privilege.

MEDIA CONNECTIONS

The most striking aspect of the Rowntree Trust is its very close ties with the media, particularly the publishing trade. The Trust itself owns 29% of Victor Gollancz, the left-wing book company, 12% of Words on Wheels, which sells language laboratories to schools, and 17% of Turret Press, which publishes a whole string of trade magazines.

But even more startling is the whole list of publishing directorships held by the various directors of the Trust. The Chairman of Rowntree is William Morrell, who also happens to be Managing Director of the Westminster Press combine. He also holds directorships on many of the Westminster Press newspapers, including the Brighton *Evening Argus*, Birmingham *Post and Mail* and the *Kentish Times*.

Jo Grimond, the Liberal MP, is a director of Rowntree and also of *The Guardian* and Manchester *Evening News*.

There are three members of the Rowntree family on the board and these too are involved in the media. M.H. Rowntree is a director of the aforesaid Turret Press and *The Friend* Publications. R.S. Rowntree is on the board of Words on Wheels

MOST ordinary people are beginning to recognise that none of the Parliamentary political parties has any answer to Britain's problems. Many also recognise that there is no fundamental difference between the parties. Here Dave McCalden documents some of the hidden financial interests pulling the strings behind the Parliamentary puppet show, 'research' fabricators and Media news slanters.

modern, church hall in Greenwich. They are the official distributors for a large number of magazines, but almost every single one is of the insidious multiracialist/internationalist point of view. These include, or have included, *Race Today* (from the Institute of Race Relations stable), *New Internationalist* (for Lefty do-gooders) and the various pamphlets published by the Acton Society Trust, P.E.P., and the Overseas Development Institute. Coincidentally, RPS is jointly owned by the Acton Society Trust, the Institute of Race Relations and the Overseas Development Institute.

The Acton Society Trust hangs out at the Poland Street warren, along with its two spawnings, the Low Pay Unit and the Standing Conference on Broadcasting. The Acton Trust is yet another institute for 'research into the nature of contemporary society'. Its trustees include or have included at least four Rowntree Trust directors: the ubiquitous W.B. Morrell, Philip Rowntree, Edward Goodman and Richard Wainwright MP. Other notables amongst its trustees are Harold Lever MP and Lord Boyle who is also a director of Westminster Press's Penguin Books, vice-president of PEST and an ex-council member

McConnell, a director of London Weekend TV, a member of the Community Relations Commission, a trustee of the Runnymede Trust and a council member of the Overseas Development Institute.

The Overseas Development Institute has taken over the role of the old Institute of Race Relations (mark I). But because the liberal-Capitalist set got their fingers burnt the first time around when the IRR was taken over by Marxists, who actually believed all the do-gooder propaganda the IRR churned out, this time they have taken suitable precautions to make sure that the same thing does not happen again.

Instead of promoting internationalism and liberalism through the medium of race relations, they have now opted for the much less immediate vehicle of 'Third World Aid'. But although the vehicle may change, the crew does not. The same prominent Capitalists who set up the IRR are today running the ODI — Lord Seeborn of Barclays Bank International, Lord Walston, the rich plantation owner and Sir Ronald Prain of Barclays and RST in South Africa.

Like the IRR, the ODI relies on the support of vastly wealthy foundations and merchant banks to provide it with an income. It recently received a staggering \$275,000 from the Ford Foundation alone. Like the IRR also, it is now to receive a generous injection of tax-payers' money in the form of a £90,000 grant from the Ministry of Overseas Development. The purpose of all this money? "To devise a rationale and framework for a New World Economic Order."

ASIANS "NOT RICH ENOUGH"

A NEW REPORT by the Community Relations Commission complains that after being in Britain for more than three years the Ugandan Asian refugees are still mainly at the bottom of the social scale. Mark Bonham Carter, the CRC's Chairman, commented: "While a number of East African Asians are doing noticeably well, the overall picture is a good deal less satisfactory".

One of the reasons advanced for the alleged poverty of the Ugandan Asians is that half the families have elderly, sick or disabled dependents which they — or rather we — have to look after.

The Commission recommends that in addition to the Government handouts which were given to the Asians when they arrived in 1972, a Government loan service should be organised to allow them to borrow up to £5,000 to start businesses. As the collateral for these is their lost property in Uganda the loans will really amount to gifts.

If, in the view of the Community Relations Commission, there is and has to be what it refers to as a 'social scale', then somebody has to be at the bottom of it. What the CRC does not explain is why Asiatics must not be at the bottom but Whites can. What is so special about Asians that they should be given preference in being elevated to the ranks of the business community, as though it were some kind of birthright? Why not give loans to British people to help them start up businesses?

The ruling Establishment quite obviously want the Coloured communities to be richer and in command of more resources than the host population on which both the parasitic Establishment and its pampered pets depend.

The Trust has also made donations from time to time to Amnesty International, the Golborne Neighbourhood Council, the Joint Council for the Welfare of Immigrants, the National Council for Civil Liberties, Release and the Runnymede Trust.

Besides giving straight financial donations, the Trust also provides free accommodation to an entire colony of liberal/left trouble-makers at its London building. The offices, in the heart of London's salt-beef bar area, are at 9 Poland Street, W1. The four storey building is allocated as follows: Fourth floor — Tory Reform Group (PEST), Third floor — Friends of the Earth, Public Interest Research Centre Ltd., Social Audit Ltd., Second floor — Apex Charitable Trust, Counter Information Services, Rowntree Trust, First floor — British Society for Social Responsibility in Science, Mothers In Action, Acton Society Trust, Standing Conference on Broadcasting, Ground floor — Low Pay Unit, Gingerbread. The foyer of the building is cluttered with cycles — the latest pseud fad, and the noticeboards are plastered with Communist posters. TWO WAR HEROES WHO OPPOSED THE RED MENACE

TWO famous World War II generals died in March on the same day: one was Lord Montgomery of Alamein who was 88, the other was General S. Kapanski who was 80.

Montgomery was a man of sincerity and wit who made a point of getting to know his troops. He was not only the most important British general of the Second World War, but he was a person of vision who realized the implications for peace of the way in which the war was conducted.

In his book, *A History of Warfare*, he wrote: "I... urged that the Allied forces should be concentrated for a thrust in overwhelming

COMMON MARKET FORCES UP DAIRY PRICES

WE pointed out in January that the Common Market's Common Agricultural Policy would double the price of dairy produce in Britain. This prediction is already well on the way to being fulfilled.

The Common Market's annual farm price review agreed at the beginning of March will add 1p to the cost of a pint of milk, between 4p and 6p to the cost of a pound of cheese, and 8p to the cost of a pound of butter.

Beef prices are also likely to suffer a further rise as a result of the Common Market agricultural talks. Up to 1,000 tons of Ulster beef is being withheld from butchers every week and put in cold storage. This represents 5 per cent of Britain's average weekly beef consumption.

Those who voted for Britain to stay in the Common Market have only themselves to blame for the rising price they have to pay for dairy produce.

the medium of race relations, they have now opted for the much less immediate vehicle of 'Third World Aid'. But although the vehicle may change, the crew does not. The same prominent Capitalists who set up the IRR are today running the ODI — Lord Seebom of Barclays Bank International, Lord Walston, the rich plantation owner and Sir Ronald Prain of Barclays and RST in South Africa.

Like the IRR, the ODI relies on the support of vastly wealthy foundations and merchant banks to provide it with an income. It recently received a staggering \$275,000 from the Ford Foundation alone. Like the IRR also, it is now to receive a generous injection of tax-payers' money in the form of a £90,000 grant from the Ministry of Overseas Development. The purpose of all this money? "To devise a rationale and framework for a New World Economic Order."

WHAT THE REDS REALLY FEAR

THE extract which we have reproduced from *Red Weekly*, paper of the International Marxist Group, reveals how the Communists fear the way in which Nationalism is building a base amongst ordinary working people.

The first part of the extract deals with the National Party, while the second part supposedly deals with the National Front. The irony is, however, that the passage about the NF is in fact based on the front page lead article of issue. No.33 of *Britain First*!

In reality the Front does not have the ability to build a base amongst ordinary working people because it is led by social snobs. Mr. John Tyndall declared that he believed in "soft soaping the working class", while Tyndall's reference to the working class being the "shirking class" was proverbial in NF circles if only for the fact that Tyndall was seen to do so little work himself.

Although one or two of the more intelligent members of the NF's ruling Directorate appreciate in theory the need to build a mass base amongst people who currently support the 'Left', their half-

the collateral for these is their lost property in Uganda the loans will really amount to gifts.

If, in the view of the Community Relations Commission, there is and has to be what it refers to as a 'social scale', then somebody has to be at the bottom of it. What the CRC does not explain is why Asiatics must not be at the bottom but Whites can. What is so special about Asians that they should be given preference in being elevated to the ranks of the business community, as though it were some kind of birthright? Why not give loans to British people to help them start up businesses?

The ruling Establishment quite obviously want the Coloured communities to be richer and in command of more resources than the host population on which both the parasitic Establishment and its pampered pets depend.

Both groups have shown an ability to discuss unemployment, bad housing, and the collapse of the welfare state in a pseudo-radical manner and then to link all the issues together by blaming the blacks. Richard Lawson of the NP is a past master of this technique: 'The survival of the British people faces a greater threat today than it has ever done in our nation's history. The threat is international capitalism — a system that has imported foreigners to undercut the wages of British workers and forced us into the Common Market.'

The policy of the NF over import controls shows the same approach. Their programme for textile workers includes: a ban on all textile imports; the sacking of all black workers and their repatriation so that British (white) workers could be given their jobs; the breaking up of the multi-nationals and their placing under British control

free accommodation to an entire colony of liberal/left trouble-makers at its London building. The offices, in the heart of London's salt-beef bar area, are at 9 Poland Street, W1. The four storey building is allocated as follows: Fourth floor - Tory Reform Group (PEST), Third floor - Friends of the Earth, Public Interest Research Centre Ltd., Social Audit Ltd., Second floor - Apex Charitable Trust, Counter Information Services, Rowntree Trust, First floor - British Society for Social Responsibility in Science, Mothers In Action, Acton Society Trust, Standing Conference on Broadcasting, Ground floor - Low Pay Unit, Gingerbread. The foyer of the building is cluttered with cycles - the latest pseud fad, and the noticeboards are plastered with Communist posters. Most of the tenants do not bother to drift in to their desks until lunch-time, although the more efficient ones (e.g. PEST) do at least take the trouble to plug in a telephone answering machine.

Despite its name, the Rowntree

DID YOU KNOW...

THE £25,000 publicity campaign launched by the Metropolitan Police Force in order to recruit more Black policemen has not attracted one single applicant.

OF the 103,252 people arrested in London last year, 12 per cent were of West Indian or African origin despite the fact that according to the Community Relations Commission these particular immigrant groups make up only 4.3 per cent of the city's population.

THE Confederation of Indian Associations has asked Roy Jenkins to make racial discrimination a criminal offence.

A recent survey conducted by the Greater London Council revealed that almost a quarter of its new council house lettings go to Coloured immigrants.

TWO WAR HEROES WHO OPPOSED THE RED MENACE

TWO famous World War II generals died in March on the same day: one was Lord Montgomery of Alamein who was 88, the other was General S. Kapanski who was 80.

Montgomery was a man of sincerity and wit who made a point of getting to know his troops. He was not only the most important British general of the Second World War, but he was a person of vision who realized the implications for peace of the way in which the war was conducted.

In his book, *A History of Warfare*, he wrote: "I... urged that the Allied forces should be concentrated for a thrust in overwhelming strength, first to seize the Ruhr and then to move on Berlin: the political heart of Germany... But the Americans considered such a policy to be militarily risky and politically unnecessary. Roosevelt was not alarmed at the idea of Russian forces overrunning eastern Europe."

General S. Kapanski was Commander of the Polish Carpathian Brigade which fought at Tobruk and in Italy where it took Monte Casino.

At the end of the War he was Chief-of-Staff of all Polish forces in London and became Inspector General of the Polish Resettlement Corps.

Kapanski was disgusted with the betrayal of Poland by the Allies who allowed the Communists to take it over.

These two war heroes should be remembered not only for their military abilities but for their political foresight and judgment - qualities which were so obviously lacking in the contemporary politicians they had to work with.

MONKEY NUTS

Several crackpot, pro-multiracialist organisations, including Liberation and the Anti-Apartheid Movement, have complained about an enormous advertisement in Tottenham Court Road promoting *The Guardian* newspaper.

The advert depicted the evolutionary process with six naked (but organless) figures walking in line; the first a squat, ape-like cave man and the last an upright human, reading - you've guessed - *The Guardian*. The other figures represented the various stages of development in between.

However, it was not the figures' peculiar lack of genitalia which upset the Liberation cranks, but the fact that only the *Guardian* reader was identifiably White! All the others were of varying hues and pigments. This, they suggested, was a blatant racist insult, calculated to imply that Negroes resembled apes.

THE extract from *Red Weekly*, paper of the International Marxist Group, reveals how the Communists fear the way in which Nationalism is building a base amongst ordinary working people.

The first part of the extract deals with the National Party, while the second part supposedly deals with the National Front. The irony is, however, that the passage about the NF is in fact based on the front page lead article of issue. No.33 of *Britain First*!

Although one or two of the more intelligent members of the NF's ruling Directorate appreciate in theory the need to build a mass base amongst people who currently support the 'Left', their half-hearted attempts to do so are transparently insincere. Anyone who really tries to build such a base is branded as a "National Bolshevik" or a "Racial Trotskyite".

If a Nationalist phrases his views in the kind of language used and understood by the politically aware sections of the working class, leading NF members like Tyndall and Verrall immediately seize on words taken out of context as evidence of Communist influences!

It is not only the mass of ordinary British working people who are held in such patronising contempt by those now in control of the NF.

Elitist notions are also displayed towards the many decent rank and file activists amongst the Front's own membership. To be held in any kind of respect at all, Front members must either belong to the gaggle of sherry-sipping old ladies of both sexes to be found grouped around John Tyndall, or to the NF's 'enigmatic' wing - the groupings of which we leave to the imagination of our readers.

Both groups have shown an ability to discuss unemployment, bad housing, and the collapse of the welfare state in a pseudo-radical manner and then to link all the issues together by blaming the blacks. Richard Lawson of the NF is a past master of this technique: 'The survival of the British people faces a greater threat today than it has ever done in our nation's history. Their programme for textile workers includes: a ban on all textile imports; the sacking of all black workers and their repatriation so that British (white) workers could be given their jobs; the breaking up of the multi-nationals and their placing under British control with worker participation. Finally there should be a drive to kick out the existing trade union leadership, who only support token import controls and thus once again scab on British workers because of their internationalism.

- *Red Weekly*, 4.3.76.

It is not only those who left to join the National Party, whom Tyndall and Verrall are likely to describe as "Neanderthals" and "under-men". At the last Front A.G.M., John Tyndall told Martin Webster that he didn't "think much of the racial material in the hall". We note in this connection that many of the leading members of the NF are hardly characterised themselves by any towering physical or mental stature.

The Front is, as *Red Weekly* puts it, "pseudo-radical". But then so is *Red Weekly*. Only the National Party offers a truly radical alternative to the present System.

"The Revolution Betrayed"

STEVE BRADY EXPOSES THE INTERNATIONAL SOCIALISTS

IN the past Communists have preferred to exchange kicks and blows rather than reasoned arguments with Nationalists. The reason for this becomes perfectly obvious as soon as one begins to take a careful look at the Left's analysis of and proposed solutions for the disastrous state of Britain today.

The latest pamphlet produced by the International Socialists, *Fight for the Right to Work*, provides an excellent case in point.

It does not take a political genius to realize that with one and a half million unemployed there is something wrong with the state of this country. Nor does it take an earth shattering exercise of intellect to realize that there must be reasons for this and that something ought to be done about it.

In this booklet the IS comrades show a full awareness of the symptoms of the sick country in which we live, but they are quite unable to diagnose the illness and their proposed cures would very definitely kill the patient.

The massive level of unemployment in Britain today is attributed by the IS not to the international financial system, but to the greed and general nastiness of an ill-defined group known as "the bosses". According to the IS, "the bosses" — identifiable by their pinstripe trousers and executive jets — deliberately bankrupt their own factories in order to put workers on the dole. It is also alleged that the Labour Party deliberately puts its own electors out of work because it is a lackey of "the bosses".

STATE CAPITALISM

IS FALACY ON IMPORT CONTROLS

Import controls have been widely advocated by many groups including the National Party as a contribution towards reducing unemployment. The IS, however, oppose these, justifying this stand with a curious mirror image of the *laissez faire* view as advanced by the apologists for International Capitalism. While the Capitalist economists argue that such protection featherbeds the worker, the International Socialists argue that it featherbeds "the bosses"!

In reality the lack of import controls would throw all nations into ruthless cutthroat competition, and the nation which would produce goods at the cheapest rate — in other words, the nation whose operatives could be induced to live at the lowest stage of existence compatible with their ability to produce goods — would become the most successful.

his pinstripe suit for a Commisar's uniform.

It is curious that when this policy of total nationalisation was carried out before, the result was attacked by Trotsky and is still attacked by the IS today as 'State Capitalism'. In essence no different from Monopoly Capitalism — and equally deserving of violent revolutionary overthrow. One presumes, therefore, that as soon as the IS has created its ideal state it will rise up to overthrow it!

AGAINST AUTOMATION

The IS appear to believe that under an IS government (or an IS controlled Labour government), British workers plus an infinitely

of their own newspaper, *Socialist Worker*, and sacked some of their own staff! When they do it, however, it is justified by 'Socialist necessity'!

SAFETY VALVE

The International Socialists and similar groups have repeatedly attacked British Nationalists for allegedly advocating 'a hotch potch of confused ideas' and being 'tools of International Capitalism'. In fact, however, it is groups such as the IS who advocate a jumble of incoherently expressed, mutually contradictory and ludicrously impractical ideas, while in fact serving as a safety valve of the Capitalist Establishment.

On examination the apparently impressive ideology of the 'Revolutionary Left' turns out to be merely a collection of empty phrases and meaningless slogans, unable to pose any credible alternative to the Establishment's disastrous policies.

Obviously, it would be fatal to the Establishment's purpose if their Leftist tools were to realize this, for then their eyes might well be opened to their true role. For this reason the members of the IS and similar groups are under strict instructions to avoid at all costs debate with British Nationalists.

It is interesting to note that the majority of the controlling committee of the IS consists of a clique of closely related aliens widely suspected, even among the Left, of being Zionists. The IS sister organisation, the International Marxist Group actually complained publicly on one occasion (*Red Mole* 2.10.72) that the Zionist "Hashomer Hatzair refused to underwrite" an anti-racist demonstration. Why such

an organisation which claims to oppose Israeli Zionist imperialism and gives frequent and violent support to Leftwing Palestinian terrorist organisations, should for one minute expect financial backing from a Jewish Zionist group must be completely inexplicable to those who have only a superficial knowledge of world politics.

BULLY BOYS

By channelling the legitimate discontent of those of the British public who care about the state of their country into sterile and harmless cavortings, the Establishment can neutralise and render harmless some of its potentially most dangerous opponents.

By diverting this discontent away from Britain's real enemy — the Establishment — and redirecting it towards the Establishment's real enemies — British Nationalists — the Establishment is able to set its potential enemies to fighting its actual enemies.

Far from being an enemy of the Establishment, groups like the IS merely serve as the shock troops and bully boys of International Finance which it uses to defend its policies of mass importation of cheap foreign labour to exploit British workers, and to forcibly crush the real revolutionary alternative — British Nationalism.

Those British people who want to end the exploitation of their country by the real bosses — the international financial plutocrats — should not be led astray by the empty mouthings of the Establishment's Leftist pets, but should unite under the banner of Britain's real Racial Nationalist revolutionaries in the National Party!

What do you know about the Working Class?

AFTER a meeting in Accrington some of us went for a drink in a pub called the Blockade which is used by the International Socialists. A very bourgeois female student came up to me and asked me what I knew about the ***** working class. (Reds are always swearing because they have this patronising idea that it impresses working class people.)

"What do you know", I replied. My grandmother worked four looms from the age of nine. My father was in the army. My mother worked full-time in a factory.

Monday morning I had to get up at 5 o'clock to clean out and black-lead the gate. Then I had to beat the washing, adding a bit of 'Dolly Blue' to brighten it. Then I put it through the mangle and hung it out to dry. When I'd done the washing I could then go to school.

When I came out of the army I went to work in a mill. The spinning master had been there all his life. His father had died so from the age of five his mother had to take him to work with her. She used to tie one end of a piece of string to a loom and the

STATE CAPITALISM

Having produced this profound and incisive analysis of the factors responsible for unemployment the IS then propose their solution. They reject workers' participation in the control of industry as advocated by the National Party on the somewhat strange grounds that "the workers are landed with the responsibility of making the place a going concern", and, perhaps the real reason, because it would "turn workers away from any nationalisation demands" — i.e. from supporting Communism.

Their alternative is to take control of British industry out of the hands of a few plutocrats and put it in the hands of a few bureaucrats. History has shown that this merely involves the plutocrat becoming a bureaucrat, swapping

There is of course one way in which this could be done and that is by increased automation of British industry which would increase production for less human effort. One is not surprised by now to find out that the IS are opposed to this. Under the IS policy of "Opposition to all forms of redundancy" workers could never be redeployed but would be shackled to collapsing and obsolete industries. But although the IS support over-manning in the print and car industries, they have recently automated the production

Why NP must organise in the Unions

by PAUL KINGSLEY (N.A.L.G.O.)

SOME Tories believe that Trade Unions should 'keep out of politics'. According to them trouble is caused when Communists bring up political issues at Union meetings, instead of simply being concerned with looking after their members' interests.

The solution, it is said, is for all moderates' (i.e. all non-Communists) to get together to keep Trade Unions 'non-political'. But how far can Trade Unions be 'non-political' and still look after their members' interests?

Increasingly, governments are looking to Trade Unions to support their economic policies. They ask for restraint, 'a year for Britain' etc. and in so doing ask Trade Unionists to make political decisions about the value of the 1001 varieties of internationalist economics. Governments, then, involve Trade Unions in politics by simply asking for approval of a particular economic strategy.

Trade Unionists are affected by Government legislation such as the Race Relations Acts. If employers are forbidden to give preference to British workers, then politics are being brought into the place of

work. Trade Unionists can either accept or reject such legislation — either way political decisions are involved.

NATIONAL INTEREST

If a Trade Unionist works for a multinational corporation then his livelihood may be threatened if the company decides to switch its operations overseas. Where such a move would be against the national interest, the worker has the right to launch a political campaign to get the Government to control the multinational.

The local government employee, when faced with staff cuts, is entitled to pressurise the Government into providing interest free loans through municipal banks, because it is the burden of debt which is forcing a choice between higher rates and massive cutbacks in staff and expenditure.

The textile worker must get involved in politics if he is to save his job, because only tough import controls imposed by the Government will safeguard the future of his industry.

All these are cases where political decisions affect the very livelihood of the British worker. No amount of 'non-political' effort will save his job because whether he stays in work depends on what political policies are being followed by the Governments. A policy of economic internationalism, *laissez-faire* Capitalism and a soft attitude towards International Finance will spell disaster — the opposite policy success.

Political ideology creeps into every important aspect of work. To be 'non-political' is merely to accept the status quo and hence give up hope of changing things. In addition, the 'moderate' who wants to keep politics out of Union affairs finds himself in the same position as the pacifist who thinks he can stop wars by refusing to fight. Of course he only succeeds in giving encouragement to the aggressor. The 'non-political' Trade Unionist does not convince the Communist

to become 'non-political' by steering clear of political issues — he simply leaves the field open to him so that he can get Communist ideology adopted as official Union policy.

The T.U.C. will not stop supporting the importation of Chilean Communists, nor will it end collaboration with the Government in giving preference to Coloured immigrants in jobs, even if we argue from now until doomsday that Trade Unions shouldn't get involved in politics. The only way things will change is if it is made clear that such things are politically unacceptable to British workers, and that they will be actively opposed at Union meetings.

INDEPENDENT LINE NEEDED

I think I have given some reason to believe that a distinction cannot be made between 'simply looking after Trade Union members' interest' and 'getting involved in politics' — the former entails the latter. I have also suggested that political involvement is necessary to defeat Communism. Should we then be supporting a political alliance of all 'moderates' to defeat Communism

in the Trade Unions? The answer must be no.

Although for some time it may be necessary to ally ourselves with non-Nationalists on particular issues, we must always bear in mind that it is not the Communists but the Establishment parties that have controlled this country for the past decades, and it is they who must take the blame for the crisis we are in. As the crisis deepens, Communism will thrive on the conditions that will have been created. Thus, opposition to Communism must include remedying the economic ills that drive people to support Communism, and it is clear that we cannot solve our economic problems if we support an anti-Communist alliance that includes parties which are responsible for those problems.

Hence it is absolutely necessary for us to pursue an independent line and show that we are not simply opposed to Communism but also have a radical alternative programme which can steer us out of the crisis. TO THIS END THE ORGANISATION OF NATIONAL PARTY TRADE UNIONISTS SHOULD BE HIGH ON OUR LIST OF PRIORITIES.

Coonty Championship

by ALAN D. HARVEY

AT a meeting of the Test and County Cricket Board held at Lord's on 19th February it was agreed to increase the number of county championship matches played each year from 20 to 22 in an effort to improve the standard of English cricket and to increase public attendances.

Nothing however was done to eliminate the basic cause of these two problems, namely the invasion of this, the most English of all games, by those whose ancestral roots are in the jungles of Africa or the festering cities of the Indian sub-continent rather than the green fields of England where the game began. In 1958 there were only 8 non-Europeans playing in county cricket, but since then, as the accompanying table shows, that number has escalated.

Recently a number of prominent administrators have been voicing disquiet at this state of affairs, but always the criticism is of overseas players rather than specifically Non-Europeans. Nobody surely can question the right of such players as the South African Mike Procter (the world's greatest all-rounder since the days of Woolley and Rhodes), the Rhodesian Brian Davison, or the Australian John Inverarity (who is to play for Somerset next season), to play in the land of their origins. Immediate action though is needed to rid our county game of the real foreigners who, with the compliance of the media, have created the idea in many White youngsters' minds

that cricket is in some way a black-man's game, and one at which they excel best — thus robbing our sons of their birthright of the game of John Small, Fuller Pilch, Grace and Blythe.

This impression happily has been destroyed recently by Australia's annihilation of the West Indies — and by the fact that in last season's championship Leicestershire finished top and Yorkshire runners-up!

Walter Barton

WALTER BARTON, a founder member of the National Party and a well known Nationalist throughout Britain has undergone a serious operation and is still convalescing. Walter has played a leading role in the growth of Nationalism, particularly in Manchester and the North West of England.

Without his efforts, time and determination, there is no doubt that the Nationalist movement would never have got off the ground in Lancashire and much of the health worries that he now has are as a result of this effort.

Our best wishes go to him for a speedy and full recovery.

National Party Literature

PLEASE NOTE that as all postal rates are now based on the metric system of weights, National Party literature will be despatched in kilo packages. We didn't ask to be 'harmonised' with the Common Market, but now it's happened we intend to take full advantage of the situation in order to streamline our whole mail order system!

Do you care about Britain? This is the first National Party leaflet and deals with general policy points. It is priced at 75p per kilo (approx. 500).

Nationalist News No.3: What the new race laws will mean to you. Make sure that your friends and workmates get the latest copy of this very popular broadsheet. It deals with the Government's plans to introduce police-state laws in order to promote race-mixing. It is priced at £1.40 per kilo (approx. 200).

National Party

The National Party exists to defend the independence and identity of the British Nation and to promote the security and prosperity of our people as a united community.

The National Party recognises that the greatest danger facing the British today is the menace of internationalism in all its forms.

In order that the British Nation with its unique talents and qualities shall survive in the World, the National Party proposes the following principles:

1) Britain should withdraw from entrapment with its trade rivals in the European Common Market and rebuild its bonds with the British settled countries, particularly Australia, Canada, New Zealand, Rhodesia and South Africa, which are linked to us by common ancestry, language and culture, and which have complementary economies to our own.

2) The British People must preserve their distinct racial character by preventing all further immigration by people of non-British stock, and by organising the humane repatriation or resettlement abroad of all Coloured and other racially incompatible immigrants, their dependents and descendants.

3) The escalation of all types of violent and anti-social crime is entirely due to the softness with which the vandal, thug, terrorist and murderer are treated by the courts. The National Party will therefore re-introduce corporal and capital punishment as one of its major early legislations and will continually campaign for the restoration of such penalties.

4) In a World dominated by military, as well as economic and ideological struggle, Britain must rearm both militarily and psychologically. We must have defence forces under British control capable of deterring any attack from any quarter, while the personnel and institutions of our armed forces must be restored to the high level of prestige fitting to the defenders of our Nation. We accept the need to enter into alliance with other Nations for our mutual defence whilst demanding that we retain our sovereignty in such alliances.

5) Individual initiative and the free market economy must be encouraged where they are the most efficient form of production. Private monopoly against the national interest must be prevented by public control of banking, finance, natural resources and foreign trade.

6) There must be a stable economy free from inflation and unemployment by the introduction of a commodity-based money supply, whereby all credit is created by the State, is directly related to the real production of goods and services, and is spent — not lent — into circulation, debt and interest free.

7) Industry must serve the community. We must root out the financial speculators, Communist disrupters and other social parasites. We must stop the wrangling in industry by the introduction of profit sharing and workers' co-partnership in the direction of industry, which will eliminate wasteful and unnecessary disputes.

8) Recognising the efficiency of the British farmer the National Party will take every step to encourage efforts to create self-sufficiency in food production.

9) The present electoral system should be replaced by a system

always the criticism is of overseas players rather than specifically Non-Europeans. Nobody surely can question the right of such players as the South African Mike Procter (the world's greatest all-rounder since the days of Woolley and Rhodes), the Rhodesian Brian Davison, or the Australian John Inverarity (who is to play for Somerset next season), to play in the land of their origins. Immediate action though is needed to rid our county game of the real foreigners who, with the compliance of the media, have created the idea in many White youngsters' minds

that cricket is in some way a black-man's game, and one at which they excel best — thus robbing our sons of their birthright of the game of John Small, Fuller Pilch, Grace and Blythe.

This impression happily has been destroyed recently by Australia's annihilation of the West Indies — and by the fact that in last season's championship Leicestershire finished top and Yorkshire runners-up!

FINANCIAL HELP NEEDED

AS a result of the High Court action brought by Messrs. Tyndall, Webster and others, in order to seize control of the National Front, the defendants in the case, Kingsley Read, Richard Lawson, Roy Painter, Carl Lane, Peter Holland, Ted Arthurton, Walter Barton and Joan Sandland, were landed with massive legal costs which still have to be paid.

Besides having to pay the cost of their own legal representation, the High Court decided that they should also pay the costs of those who brought the action. The latter have not yet been determined, but there is £551.10 still outstanding on the former.

Contributions are desperately needed to help pay these costs. Two of the above lost their jobs as a direct result of the court case. Unlike the National Front we don't have any rich Norfolk landowners to pay our bills. If you are able to send a donation please fill in the form below.

I enclose as a contribution to the legal costs of the defendants named above.

8) Recognising the efficiency of the British farmer the National Party will take every step to encourage efforts to create self-sufficiency in food production.

9) The present electoral system should be replaced by a system of proportional representation ensuring that the spread of opinion in the House of Commons reflects the spread of opinion in the Nation more accurately than at present.

10) Recognising that the British Nation has a common Anglo-Celtic cultural heritage and a collective interest, the National Party opposes any devolution of power to England, Scotland or Wales, which could lead to the breakup of the United Kingdom. The National Party will encourage local folk culture, customs and traditions, and will end the economic neglect of the regions, giving greater local control through devolution on a county or regional basis.

11) Northern Ireland must stay British. Firm action must be taken to eliminate the Irish Republican Army and its bases of support. A democratically elected local parliament with majority rule and full control over internal security matters must be re-established. *This is the only safeguard for the loyal British majority in the province given the weak and spineless behaviour of the Westminster politicians in the face of mounting terrorism.* There must also be greater representation in the United Kingdom Parliament in proportion to the number of people who live in Northern Ireland.

12) The National Party accepts the principle that the State must ensure the provision of a basic standard of welfare, health and social security for all those who genuinely require it.

13) To ensure that all British people in housing need are able to acquire a home of their own, house building and renovation will be vigorously encouraged.

14) Whilst accepting the need for the State to provide for equality of opportunity in education, the National Party supports the right of individuals to choose the form of education they prefer for their children, although basic minimum standards must be ensured.

15) The National Party will ensure the retention of all that is best in Britain, and will protect our heritage, ancient monuments, ecology, and seas and shores from destruction.
